PROJECTS

Real-Time Investment Portfolio Management System (03/2025 - 04/2025)

- Created an interactive dashboard with a robust investment backend, allowing real-time tracking of market trends, portfolio performance, and asset allocation. This helped make smarter, data-driven investment decisions.

Data-Driven Sales Performance Dashboard with Predictive Insights (Power BI) (12/2024 - 02/2025)

- Designed an interactive Power BI dashboard for sales tracking, revenue forecasting, and KPI analysis. Uncovered key insights into sales trends and customer segmentation, leading to informed decision-making.

Financial Statement Analysis & Performance Monitoring Dashboard (Excel) (09/2024 - 12/2024)

- Built a financial dashboard for in-depth analysis of balance sheets, income statements, and cash flows, incorporating fundamental and ratio analysis for liquidity, profitability, and trend assessment.

WORK EXPERIENCE

Research Assistant

Namal University

09/2025 - Present

Mianwali, Pakistan

Achievements/Tasks

- Studying the impact of fraudulent activities on shareholder value, comparing KMI vs. non-KMI firms and financial vs. non-financial institutions.

MTO

Azgard Nine Ltd.

08/2024 - 09/2024

Lahore, Pakistan

Achievements/Tasks

- Completed a 6-week Supply Chain Management training, covering procurement, inventory, logistics, ERP systems, and optimization in textile manufacturing.
