🗣 Ahmad307777

Full Stack Developer skilled in React.js, Node.js, Django, MongoDB, MySQL, PostgreSQL, REST APIs, and cloud deployment. Experienced in front-end and back-end development, authentication systems, database management, debugging, and API integration. Strong problem-solving, organizational, communication, and team collaboration skills with knowledge of AI and Agile development.

EDUCATION

○ Bachelor of Science in Computer Science

Namal University Mianwali

Oct 2022 - Present | Mianwali, Pakistan

Courses

- Data Structure and Algorithms
- Database Systems
- Computer Networks
- Machine Learning
- Object Oriented Programming
- Operating Systems
- Artificial Intelligence
- Web Development

PROJECTS

Survonica - The Intelligent way to create and distribute surveys

Final Year Project

Architected a Django/React AI survey platform using Llama 3.3, achieving 85% faster creation and automated 9-dimensional reporting.

Podcast Cloud Platform

Undergraduate Project

Architected a cloud-based podcast streaming platform with scalable backend architecture, CI/CD pipelines, and optimized media delivery.

Career Tracker

Undergraduate Project

Built a full-stack job tracking platform using React.js, Node.js, and MongoDB to manage 5K+ job listings and application workflows.

AI Powered Resume Screening Tools

Undergraduate Project

Developed an NLP-based resume screening system using TF-IDF, Random Forest, and cosine similarity, achieving 91% matching accuracy.

Automatic Essay Scoring Tool Using BERT and LSTM

Undergraduate Project

Created an AI-driven essay evaluation platform using BERT and LSTM models trained on 2,500+ essays with up to 88% accuracy.

WORK EXPERIENCE

○ IT Intern

Habib Bank Limited Micro-Finance

Completed a 2-month IT Operations internship at HBL Microfinance, supporting system monitoring and enterprise banking IT operations.

Jul 2025 - Sep 2025

SKILLS

- HTML5
- CSS
- JavaScript
- C++
- Python
- React
- Django
- Node.js
- Flask
- Supabase
- Streamlit
- MongoDB
- PostgreSQL
- MySQL
- Oracle
- Git
- Tailwind
- REST APIs
- Burp Suite
- Azure
- Linux
- GitHub
- Microsoft Office
- Postman
- Problem Solving
- Quick Learner
- Team Collaboration
- Communication
- PHP
- Problem Solving
- Organizational Skills

CERTIFICATES

Cybersecurity Workshop

Team RDX AI

Completed a Cybersecurity Workshop by Team RDX AI, covering network security, ethical hacking basics, and digital threat prevention with practical exposure to identifying vulnerabilities and secure system practices.

Introduction to Python

Coursera

Completed an Introduction to Python course, gaining foundational knowledge of Python programming, including syntax, basic problem-solving, and core programming concepts.

LANGUAGES

English

Professional Working Proficiency

Urdu

Full Professional Proficiency

INTERESTS

- System Design
- Software Development
- API Integration
- Web Design
- System Testing
