Mianwali, Pakistan

linkedin.com/in/malikhassan009

github.com/maliikhassan

Flutter Developer with practical experience in **mobile application development** using **Flutter** and **Dart**. Skilled in building scalable cross-platform applications with expertise in **Firestore**, **Supabase**, **API integration**, **Maps**, and **payment systems**, focused on delivering seamless and high-performance user experiences.

EDUCATION

Bachelor of Science in Computer Science

Namal University Mianwali

11/2022 - 06/2026

3.25 CGPA

Courses

- Object Oriented Programming Algorithms, Software Engineering, Parallel and Distributed Computing, Artificial Intelligence, Machine Learning, Discrete Mathematics, Operating System, Information & Cyber Security, Natural Language Processing

PERSONAL PROJECTS

Cotton Lint Quality Grading (FYP)

- Built an **AI-powered cotton lint grading system** using **OpenCV**, **CNNs**, **Vision Transformers**, and **Flutter**, enabling fast and accurate cotton quality assessment through automated **texture**, **color**, **cleanliness**, and **fiber analysis** in a mobile app.

Namal Mess Management App

December 2024 - May 2025

- Developed a real-time university mess management platform using **Flutter**, **Firestore**, **Stripe**, and **Google Maps**, enabling secure meal ordering, PIN and fingerprint authentication, and live order monitoring through integrated **mobile and admin applications**.

QuickPick Market – Digital Local Marketplace

February 2025 - June 2025

- Built a cross-platform marketplace application using **Flutter**, **Supabase**, and **GetX**, enabling digital product discovery, real-time customer and shopkeeper communication, shopping cart management, and offline shopping assistance through smart search and categorized market listings.

EXPERIENCE

Flutter Developer at vorza360 - Remote

August 2025 - Present

- Developing high-performance cross-platform mobile applications using Flutter, Firebase, REST APIs, and modern UI/UX practices, with a focus on scalable architecture and real-time functionalities.

Development Intern at Speridian Technologies

July 2025 - September 2025

- Completed a summer internship focused on custom software development using ASP.NET Core and .NET technologies, working on backend development, database integration, and enterprise application workflows.

SKILLS

CERTIFICATES

Startup Weekend (LUMS Lahore)

Participated in Startup Weekend at LUMS Lahore, where a mobile application prototype was developed to present and validate a business idea through rapid design, development, and pitching.

Mobile App Development Competition (COMSAT)

Participated in the Mobile App Development Competition held at COMSATS Wah Campus, showcasing mobile application development skills and problem-solving in a competitive environment.

Graphic Designer (Namal Computing Society)

Received an appreciation certificate for contributing as a Graphic Designer at Namal Computing Society, creating visual content and supporting design needs for society events and activities.
