SKILLS

Python C++ git

Javascript Django

React.js MongoDB

MYSQL Github

Wordpress Blender

CERTIFICATES

MongoDB Bootcamp

National Skill Development Corporation

Hands-on training in MongoDB

Jan 2025

LANGUAGES

English

Professional Working Proficiency

Urdu

Native or Bilingual Proficiency

INTERESTS

Data Analytics

Tech Exploring

Machine learning

EDUCATION

Bachelor of Science in Computer Science

Namal University, Mianwali

Oct 2022 - Aug 2026

Courses

- Object Oriented Programming
- Computer Networks
- Compiler Construction
- Parallel and Distributed Computing
- Database
- Operating System
- Cyber Security
- Machine Learning

WORK EXPERIENCE

Teaching

Private Academy

Provided tutoring to intermediate students in summer break.

PROJECTS

SignViz: Learning Platform For Deaf Students (FYP)

Researcher and Developer

An AI powered platform that converts video lectures into Sign Language avatars making content understandable for deaf students.

Online Banking System

Developer

Developed an OOP-based banking application with features like account management, fund transfer and transaction tracking. Implemented core OOP principles for a modular and secure design.

Online Ticket Booking Website

Developer + AI Engineer

Built a web-based ticket booking system using React and MongoDB with features like seat booking, user authentication and trip management.

Saraiki Language Compiler

Developer

Developed a native language compiler as a compiler construction semester project.

COMPETITIONS

University Hackathon - Namal University (2023)

Programmer
