## EDUCATION

### BACHELOR OF COMPUTER SCIENCE

Namal University Mianwali

Oct 2022 - Jul 2026 | Mianwali

#### Courses

- Object Oriented Programming, Data Structures & Algorithms, Database Systems, Web Development, Cloud Computing, Artificial Intelligence, Machine Learning

## PROJECTS

### Perfomix: Performance Management System

Final Year Project

*Built a web-based performance management system using React, Node.js, and MySQL for employee tracking, task management, and role-based dashboard monitoring.*

### Integrated Facility Management System

Semester Project

*Developed a full-stack web application for service booking, staff management, task tracking, and operational monitoring with client, admin, and staff portals.*

### IoT-Based Smart Home Network using Cisco Packet Tracer

Semester Project

*Designed and simulated an IoT-based smart home network in Cisco Packet Tracer using routers, switches, and wireless protocols for remote control, security monitoring, and energy management.*

## SKILLS

Javascript

Python

C++

My SQL

React.js

Node.js

Express.js

MongoDB

Bootstrap

Machine learning

Cisco Packet Tracer

Wireshark

## LANGUAGES

### Urdu

*Native or Bilingual Proficiency*

### English

*Professional Working Proficiency*

## INTERESTS

Full-Stack Web Development

Network Simulation

Problem Solving
